EXECUTIVE SUMMARY

In accordance with GSST A3.4, which states “*When the number of main station lines and private branch exchange trunks in the local service area of an exchange increases or decreases to the extent that such exchange moves into a different rate group, the Company shall file a revised tariff in accordance with the statutory provisions and rule and regulations of the Commission, making effective the rates for the appropriate higher or lower group after a waiting period of six months from the last day of the month in which the exchange moved into the different group*”; the following BellSouth® Exchanges will be reclassified to different rate groups due to area growth. Each of the following Exchanges has qualified for the rate group reclassification for a period greater than six months.

The Following Exchange Classifications will Change Due to Area Growth	Old Rate Group	New Rate Group
ATHENS	2	3

- (a) Each line

2. Local message charge

Charge Per Call	USOC
\$0.10	NA

- (a) Each message

A3.7.3 Reserved For Future Use

A3.7.4 Measured Rate Service

- A. Individual line measured rate service is available only in certain central offices of the exchanges shown herein. Measured rate service will not be offered where RegionServ is available with the exception of service provided to customer-provided public telephones (see A3.1.E.).¹

Measured rate service requires special equipment and arrangements and is furnished only when such equipment and arrangements are available.

The rates specified, with zone charges applicable to those services furnished outside the BRA of an exchange, entitle subscribers to a usage allowance for calls completed to stations in the local calling area, i.e., all stations bearing the designation of central offices of the serving exchange and additional exchanges as shown in A3.6, Local Calling Areas, of this Tariff.

Charges for local usage in excess of the allowances are specified in A3.2.3 preceding and are based on mechanized records kept of all calls originated on the line.
